Our client is the specialist Healthcare division of a leading global organisation, dedicated to improving the lives of specific individuals. With operations around the globe and ambitious plans for organic growth in place, the business is poised to enter an exciting phase.

The purpose of the role is to fulfil the statutory duties of a Company Medical Director in territories outside the USA. You will also be required to provide medical support to the Pharmaceuticals Division generally.

Main responsibilities are:

- Provide traditional input of the Medical Director regionally to ensure high professional and ethical standards.
- Co-ordinate the “Medical Affairs” functions in local markets either through a third party or our client’s infrastructure.
- Ensure compliance with MAH commitments
- Assist with the development and registration of NPDs or licensing agreements.
- Co-ordination of activities surrounding issues with various governmental, regulatory, trade and professional agencies.
- To assist with medical and technical support as required.
- To develop strong contacts key opinion leaders in therapeutic, regulatory, political, trade and professional arenas.
- Work closely with external partners.

Key Requirements:

- Medical degree with broad medical and pharmaceutical industry knowledge and experience particularly in the EU.
- Experience within the pharmaceutical industry in medical affairs and clinical research.
- Expertise in pharmacovigilance.
- Broad knowledge of regulatory frameworks.
- Experience of working with and influencing governmental departments and decision makers on an international level within healthcare.
- A clear and logical thinker with the ability to recognise patterns and develop innovative solutions.
- Commercially driven.
- Ability to develop and communicate argumentation in order to influence externally and internally.
- Flexibility of thinking in order to facilitate working with many different professional disciplines.
- Pro-active self-direction with a high level of initiative and persistence.
