

MEDICAL SCIENCE LIAISONS
France and Belgium

Your passion for patients will ensure that you are a valuable resource and scientific expert on disease state concepts and our products. As one of our Medical Science Liaisons, you'll add to the strength of our UK or continental field teams.

Vertex Pharmaceuticals Incorporated is a global biotechnology company committed to the discovery and development of breakthrough small-molecule drugs for serious diseases. Our product pipeline is focused on viral diseases, cystic fibrosis, inflammation, autoimmune diseases, cancer, pain and bacterial infection. At all times our key focus is improving the lives of patients, and our passionate, highly skilled teams have exemplary standards and strong values. We continually push the barriers of science to obtain high quality results as efficiently as possible.

A resource and scientific expert on disease state concepts and our products for cystic fibrosis - current and in development, you will liaise with professionals ranging from clinical trial investigators to academic physicians, care teams, nurses and patient advocacy group leads. It will see you establish and develop relationships with opinion leaders to allow appropriate education and scientific exchange forum as well as help expand needed research, advisory and other collaborative opportunities.

You will respond to information requests and keep abreast of any treatment trends that could impact us. In addition, you will communicate appropriate disease state information and scientific data, and facilitate the review of research proposals. You will also represent us at medical conferences and establish a presence in the cystic fibrosis medical community. Naturally, you will manage our relationships with thought leaders and key people in your base countries.

For this field-based role, you will have a good knowledge of the industry and be very effective in working on your own and managing your own projects. An excellent relationship builder, you will have a talent for working across countries within Europe as well as with the United States.

On the academic front you will have an advanced biomedical sciences degree backed by medical affairs and field experience within biotechnology or the pharmaceutical industry. You are a seasoned Medical Sciences Liaison or Medical Product Manager with thorough understanding of the biopharmaceutical industry. Knowledge of Cystic Fibrosis, pulmonary diseases or pediatrics would be an advantage, and Spanish language skills would be a bonus.

In return, you can look forward to a competitive salary and benefits package.

If you believe in being fearless, innovative and achieving success together, please visit our website www.vrtx.com to find out more information and apply. Closing date for applications is 22nd June 2011.

The Science of possibility
